What are the services your business / organization offers?

Senior Directory is a comprehensive and reputable guide designed to help Seniors, their families, caregivers, professionals, social workers and clergy members learn about and locate the services, living options, benefits, and products available to Seniors in the Charleston and surrounding areas. Our website also provides these same resources to those who are out of the area or prefer to use the Internet to find information.

How does your business/organization help individuals age in place successfully?

Senior Directory understands that aging in place means different things to different people. Therefore, I am dedicated to publishing an accurate guide twice a year that helps Seniors age in place healthfully and be the resource they keep, even carry with them and refer to as different questions and needs arise. Senior Directory is the resource for tools Seniors want and need to age comfortably, in the manner they want to.
